

WELCOME TO MEDI LAB DIAGNOSTICS LABORATORY SERVICES

Medi Lab is unique lab dedicated to ensuring accurate patient result by using terms of highly skilled technologist directly supervised by pathologist, working on some of the best technology available anywhere. Medi Lab performance is supported by a service oriented staff who ensure that result are available to patient on time > and with smile.

About Us

Medi Lab Diagnostics Laboratory Services was founded upon core values of patient priority and accurate testing. During the past 10 years, we have built up a legendary reputation for excellence in both, from a small local lab we have grown to become a regional network. However our goal remain unchanged - to serve each patient with the same care and service that is at the core of our organization.

Our Vision

To be premier healthcare provider in every community and region that we serve.

Our Mission

To provide result of best quality at very affordable price

Sample Handling & Labeling

Automated ordering system are used to minimize errors in sample collection and test requests. Well-organized computer screens allow quick input of test orders, minimizing human error. Test labels print with a unique accession number and barcode and specimen are labeled immediately upon collection.

Web Based Reporting

We are upgrading our Lab Information system so that patient will now routinely receive their result by email, Whatsapp or get from our website. This hassle free home delivery save your patient time and money.

Quality Control

Hi Perform analyzers from Merck, Vidas and boule perform tests using top quality reagents provided directly to us by the leading multinational group. Daily quality control is reviewed by our team of pathologists and maintain within strict guidelines.

Wide Array of Specialized Testing:
